

I Should've Asked Her Faster (ESP 1003) Elmer Sheffield, Jr.

OPENER - MIDDLE BREAK Basic

Circle left

In a little dance hall just outside of Dallas
I dropped my drink as she came walkin' by
Men star by the right and roll it **one time around**
Allemande your corner and you **weave the ring**
I should've asked her faster, but I waited too long
Swing that girl, and **promenade her home**
I didn't get her number, I never asked her name
A natural disaster, I should've asked her faster

FIGURE (heads twice, sides twice) Plus, corner progression

Head two couples promenade you **go halfway**
Walk right in and star thru you go
Double pass thru, then **track two** you know
Make a wave and **balance** there you go
All eight circulate and **go double**
Swing that corner girl and you **promenade**
I didn't get her number, I never asked her name
A natural disaster, I should've asked her faster
