

Ain't Nothin' Wrong With The Radio (ESP 176) Elmer Sheffield, Jr.

OPENER - MIDDLE BREAK - CLOSER Mainstream

Sides face grand square

*Sometimes she runs and sometimes she don't
 More than once she's left me on the side of the road
 The older she gets the slower we go
 But there ain't nothin' wrong with the radio

Four ladies promenade inside the ring you go

Swing your girl around and **promenade her back home**

She ain't a Cadillac and she ain't a Rolls
 But there ain't nothin' wrong with the radio

FIGURE Plus, corner progression

Heads promenade and **go halfway** around

Walk in and square thru go 4 hands round

Four hands around, then **swing thru** you know

Girls fold, peel the top, walk up and go

Square thru 4 hands and then **trade by**

Swing the corner girl and **promenade** oh my

She ain't a Cadillac and she ain't a Rolls
 But there ain't nothin' wrong with the radio

ALTERNATE LYRICS

*She needs a carburator, a set of plug wires
 She's ridin' me around on four bald tires
 Her wipers don't work and her horn don't blow
 But there ain't nothin' wrong with the radio

*I got the best lookin' gal in my hometown
 I ask the last time that I took her out
 Honey, tell me what it is that makes me love you so
 She said there ain't nothin' wrong with your radio
